The WATCHDOG REPORT

OCTOBER 2026

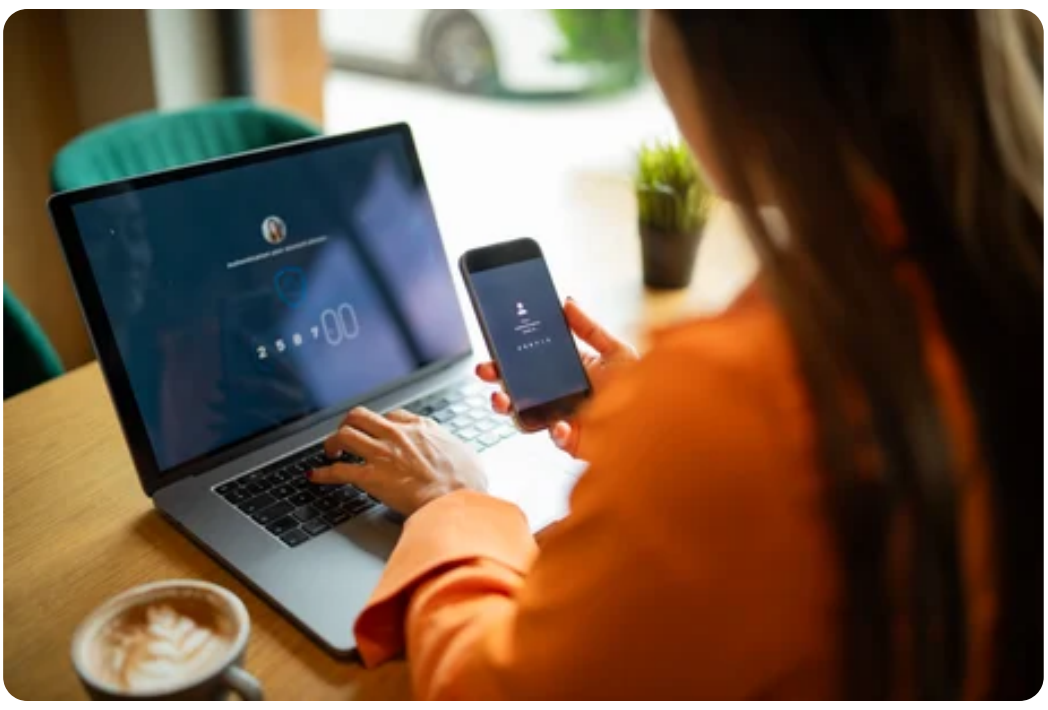

Coming Soon: A New Look and Feel for SCCU.com

We've got some exciting news to share: a brand-new SCCU.com is on its way, and we can't wait to share it with you!

We've been working behind the scenes to build a new website that's faster, easier to navigate, and designed with you in mind. Whether you're checking rates, applying for a loan, or exploring ways to grow your savings with our calculators, the new website will make every visit smoother and more intuitive.

One thing that's not changing? Your Online and Mobile Banking. You'll log in and manage your accounts exactly the way you do today. This update is to SCCU.com only.

We're not quite ready to reveal everything just yet but stay tuned. The big reveal is coming soon, and we think you're going to love it.

October is Cybersecurity Awareness Month!

Cyber threats are getting faster and smarter. New and evolving technology, like Super Intelligence, is helping hackers find and exploit weak spots in financial systems more quickly than ever before. That puts your personal finances, your savings, and your personal information even more at risk.

The good news? You don't have to worry alone. At SCCU, we're constantly working behind the scenes to safeguard your accounts, personal information, and hard-earned savings. Our team monitors for threats around the clock, so you can manage your finances with confidence.

Here are four core steps to help keep your information safe:

1. Avoid and report phishing scams.
2. Use strong passwords.
3. Use multifactor authentication and a password manager.
4. Keep your software updated.

Check your accounts often, pause before clicking unexpected links, and reach out to us anytime if you have any questions.

Tips for Safeguarding Your Personal Info

Upcoming Holiday Closures

November 11: Veterans Day
November 25: Thanksgiving Day
